COURSE INSTRUCTORS

Heath Brantley, DDS
Wendell Family Dentistry

After graduating from North Carolina State University with his DDS, Dr. Heath Brantley opened Wendell Family Dentistry in Wendell, NC, a practice which places an emphasis on combining today's technology with personalized care to elevate the patient experience. Dr. Brantley maintains multiple certifications and is an active member of professional dental communities, whilst volunteering his time with a variety of charitable dental clinics.

Zachary Wesley, DDS
Wesley Dentistry

Dr. Wesley graduated from the University of Texas School of Dentistry at Houston, with his DDS in 1999. He completes extensive continuing education courses each year, and has been a member of several study clubs and professional organizations, including the AGD, ADA, and Tennessee Dental Association.

Cancellation Policy: Due to limited seating, we request that you cancel at least 7 days (November 28, 2025) before the event date/time to receive a 100% refund. You may cancel at any time in writing by texting or emailing Chad Gibson at (865) 308-1204 or cgibson@convergentdental.com. Cancellation requests made within 24 hours of the event date/time may not receive a refund. When you register and pay for the class, you agree to these terms.

HANDS-ON PROGRAM AND LIVE CASE OBSERVATIONS

Discover how the 9.3-micron CO2 all-tissue laser can elevate your practice through improved efficiency, patient experience, clinical effectiveness, and procedural expansion. This comprehensive course merges clinical and business cases with hands-on experience to demonstrate the benefits virtually anesthesia-free, blood-free, and pain-free procedures provide you and your patients.

- **Novel Technology:** Explore how the 9.3-micron wavelength enables precise, controlled tissue management of enamel, dentin, decay, gingiva, and bone.
- **Clinical Versatility:** Learn how the 9.3-micron CO2 all-tissue laser can benefit almost every patient, every day with applications in restorative, soft tissue, implant, airway, tethered oral tissues, and cosmetic procedures. *Plus an introduction to a NEW application for minimally invasive periodontal therapy.*
- **Practice Impact:** Understand how improved efficiency, clinical effectiveness, and patient experience combine to create a profound impact on practice growth.
- **Hands-On Experience:** Gain experience cutting with the laser using the unique variable-speed foot pedal, demonstrating seamless transitions between different tissues.
- **Live Case Observation:** Witness live procedures in a true clinical setting to gain firsthand understanding of the technology's speed, precision, and impact on dental practices and patient experience.
