

Stemming the Tide on the Opioid Epidemic

New Non-Opioid Strategies and Pain Management Guidelines

Webinar AGD Code: 346 | CE Credits: 1 | Credit Type: Online, webinar
Duration: 1 Hour | Webinar Live Date: January 14th, 2026 | Webinar Start Time: 5:00 PM (PT) 8:00 PM (ET)

Presented by Dr. Mark Donaldson

Live CE Webinar

Presentation Date:

Wednesday, January 14th, 2026

5:00 pm (PT) | 8:00 PM (ET)

ABOUT THE WEBINAR

This interactive program looks at the appropriate prescribing of analgesics with a particular focus on the dental realm. Case studies will augment the delivery of key points and a problem-based learning approach is encouraged so that each participant's questions are addressed.

Updated guidelines and newly approved non-opioid medications will be introduced to further help you, your Team, and most importantly – your patients.

Learning Objectives:

- ✓ Discuss the pathophysiology of pain as it relates to dentistry.
- ✓ Recognize the most recent guidelines in managing postoperative dental pain in pediatrics, adolescents and adults.
- ✓ Understand the perfect analgesic recipe to keep (almost) all of your patients out of pain – first time, every time.
- ✓ Identify some of the new FDA-approved, non-opioid analgesics to help combat our reliance on narcotic-containing pain medications.
