HANDS-ON PROGRAM AND LIVE CASE OBSERVATION

Discover how the 9.3-micron CO₂ all-tissue laser is advancing a new standard in modern dentistry, through improved efficiency, patient experience, clinical effectiveness, and procedural expansion*. This comprehensive course merges clinical and business cases with hands-on experience to demonstrate the benefits anesthesia-free, blood-free, and pain-free** procedures provide you and your patients.

- **Modern Technology:** Explore how the 9.3-micron wavelength enables precise, controlled tissue management of enamel, dentin, decay, gingiva, and bone, allowing you to streamline existing procedures and expand to new procedures, while also complementing surrounding technologies.
- **Clinical Versatility:** Learn how the 9.3-micron CO₂ all-tissue laser can benefit almost every patient, every day with applications in restorative, soft tissue, implant, perio, airway, tethered oral tissues, and cosmetic procedures, and more.
- **Practice Impact:** Understand how improved efficiency, procedural expansion, and patient experience combine to create a profound impact on practice growth.
- **Hands-On Experience:** Gain experience cutting with the laser using the unique variable-speed foot pedal, demonstrating seamless transitions between different tissues.
- **Live Case Observation:** Witness live procedures in a true clinical setting to gain firsthand understanding of the technology's speed, precision, and impact on dental practices and patient experience.

COURSE INSTRUCTORS

Anthony Bolamperti, DDS, Omaha Laser Dentistry

Dr. Bolamperti graduated from the Creighton Medical School of Dentistry, where he is also a part-time faculty member. He began practicing with his father before opening his own practice in 1997, and has over 18 years of laser dentistry experience. He now runs a private practice in Omaha, NE and is a charter member of the iCON Articulation.

Chris Jenkins, DMD, Jenkins Family Dentistry

Dr. Jenkins attended Indiana University Southeast and the University of Louisville School of Dentistry, where he graduated with a Doctorate in Dental Medicine. He is actively involved in his community and has been asked to speak at many support groups and schools throughout the area. Dr. Jenkins has been in the dental industry for over 24 years, including eight years of product knowledge and training through dental sales.

* Based on report of 1000 procedures performed by Solea users. Documentation on file.

**Based on Annual Survey of Solea users. Documentation on file.
